Protein 18g	36%

High-Quality Milk Protein

Sourced from the Netherlands, our premium protein is made from fresh skim milk, offering a complete blend of casein and whey. This high-bioavailability, low-lactose formula supports muscle growth, recovery, and overall wellness. It's an ideal choice for active adults looking to build muscle, enhance energy levels, and maintain a healthy lifestyle.

Only Natural Ingredients

Reason drinks are made with 100% natural ingredients, free from artificial additives, fillers, and sweeteners. A balanced blend of carbohydrates, proteins, and fats offer easy digestion and rapid recovery, providing effective nutrition to keep you nourished and energized in demanding situations.

Easily Digestible Fats

Reason drinks are an excellent source of Medium Chain Triglycerides (MCTs), a special type of fat derived from fractionated coconut oil that is easily digested and quickly processed by the body. MCTs are absorbed directly from the stomach to the liver, providing rapid energy to help adults stay active and focused throughout the day. Because they are gentle on the digestive system, MCTs are an ideal choice for adults with sensitive stomachs or digestion concerns and those with compromised digestive systems.

WHY REASON?

- For individuals experiencing malnutrition or unintentional weight loss with a compromised GI system
- Provides the proper balance of nutrients to meet the specific nutritional needs of individuals struggling to maintain their weight and energy.
- It is a high-calorie, easy-to-drink, and easy-to-digest beverage designed to assist those who have not succeeded with traditional weight gain supplements.
